MEMBERSHIP

Membership is a key priority for the committee and significant effort is committed to attracting new, and retaining existing members. Each year we lose about 30 members, mainly to reasons outside of our control such as injury or a move of location. As a result, for the membership to remain static or in growth, we plan to attract between 30 and 40 new members each year.

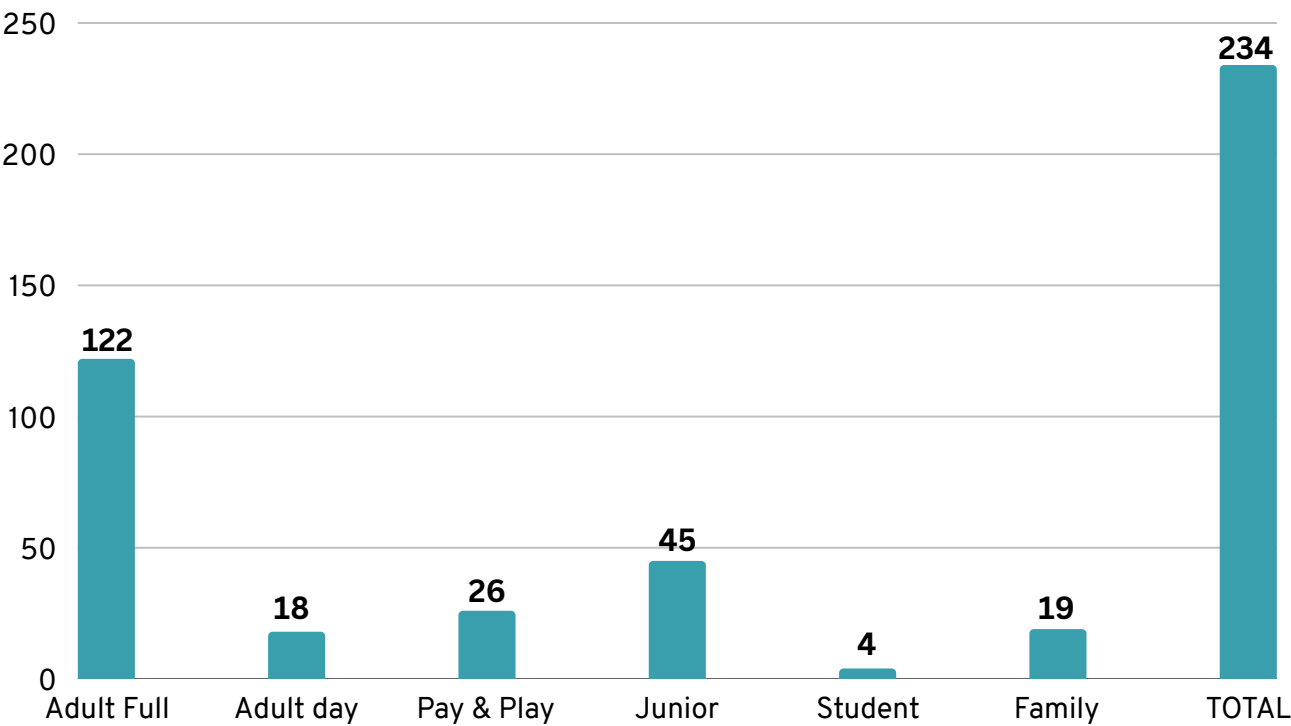

We find new members through website marketing and social media, plus some valuable introductions from existing members. Over recent years we have broadened our offer to new members and we now have more membership options and more activities to engage those who join. Often new members don't have established contacts at Dunnington, so we rely on our mini-leagues and coaching sessions to get new arrivals off to a good start. We also offer support to new members in the form of introduction sessions and connections with other similar standard players.

Our annual charges for membership remain good value when compared to other local offerings. Each year we review our charges in comparison to the 4 other York clubs and Dunnington remains competitive while offering excellent facilities. We will continue to invest in the club to ensure that membership is good value for existing members and attractive to those looking for a club to join.

Notes. We have 14 Yorkshire League members who are not included in the table below. We also have 4 honorary members who are also not included in the table below. These members do not pay subscription charges.
